

QUESTIONNAIRE

Care giver, follow-up measurement

Your experiences as a caregiver are valuable

You are caring for your partner, a family member, a friend or a loved one. This list contains questions about what this care means for you as a caregiver. Your answers will be used in research aimed at improving elderly care and informal care. The more information there is about these types of care, the more they can be taken into consideration. For example when changing the facilities, regulations or legislation for care and wellbeing. Therefore, your experiences are also valuable for other caregivers. Your answers will be processed anonymously and your data will not be distributed further.

If you complete this questionnaire, this will not have any effect on the care that you or your loved one receives.

Time spent caring for your loved one

The following questions are about the amount of time that you spend caring for your loved one. You will be asked to write down whether you have given your loved one assistance for various activities of daily life. With 'assistance', we mean that you have supported your loved one in the task or have taken over the task entirely.

Please fill in as accurately as possible the amount of time that you spend on all activities. For some caregivers it feels like they spend the whole day caring for their loved one. For example, because the care is very hard work. Even so, try to indicate as precisely as possible how much time you really spend caring for your loved one. There are questions further on in this questionnaire about how hard the care feels to you.

Complete the questions based on how the previous week has been. Choose another week if your time expenditure in the previous week has been very different to an average week, for example due to illness or vacation.

In the past week, have you had to help your loved one with the following due to his/her health problems ...

10 household tasks such as preparing food and drinks, cleaning the house, washing, ironing and sewing of clothing, shopping for groceries or odd jobs in the house or the garden?

No

Yes, namely hours per week

In the past week, have you had to help your loved one with the following due to his/her health problems ...

11 personal care (dressing and undressing, washing, combing, shaving), going to the toilet, moving around the house, eating, drinking or administering medication?

No

Yes, namely hours per week

12 moving around outside the house, going on outings and visiting family or friends, contacts with healthcare (accompanying him/her for example to the general practitioner, the hospital, therapy), arranging assistance, devices and/or home modifications and organising financial and administrative matters?

No

Yes, namely hours per week

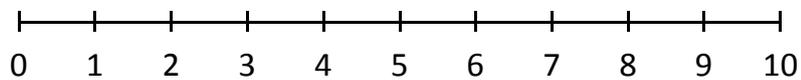

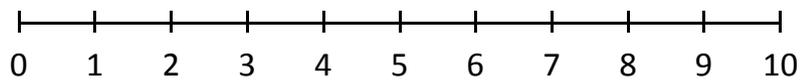

13 Does your loved one receive help from other caregivers or volunteers besides you?

No

Yes, namely hours per week

How difficult is the care for you

14 Indicate with a tick on the scale how hard you are finding it to care for your loved one. The closer to '0', the less hard you find the care. The closer to '10', the harder you find the care. (Also refer to the example below.)

Not difficult at**all****Far too difficult****Do not like at****all****Like very much**

Example: How much do you like chocolate ice cream?
