* Last updated: 22 november 2012.

* SPSS syntax for sum scores CARERQOL.

* NOTE: if any items are missing the sum score will produce code 9999 'unknown'.

* Labels: fulfillment and support: 0=No(ne), 1=Some, 2=A lot of / others: 0=A lot of, 1=Some, 2=No(ne).

* Source: iMTA Valuation of Informal Care Questionnaire v1.0, Hoefman, Van Exel, Brouwer .

* ADVICE: run this syntax in pieces; running it all at once may create errors/problems.
